Summary of Continuous Improvement Efforts since Last Report

Provide a brief description of how assessment results have been used for program improvement. Point to a specific example of how an assessment provided the program with data it could use for improvement and what that improvement was, if possible, also show evidence of the improvement. You may look at data from the two previous academic years to support this case.

Respond here:

Assessment data has been used to evaluate programs goals and areas of success. Success percentages are lower this year than previous years due to focus more on retention than on success of students retained. This is representative of an overall improvement in quantity and quality versus quality negating quantity.

Program Highlights Since Last Report

Identify and briefly discuss any programmatic curriculum changes made since the last report (e.g. new courses, course changes, SLO changes, course deletions).

Respond here:

Curriculum has maintained its basic structure. Most course changes are cosmetic and course additions intended are geared towards streamlining and lower class level student retention.
